POSTAL REGULATORY
COMMISSION
OFFICE OF THE SECRETARY

Hon. Stacy L. Ruble, Secretary
Postal Regulatory Commission
901 New York Avenue NW, Suite 200
Washington, D.C. 20268-0001

Dear Mr. Ruble:

In connection with the Commission's rules pertaining to periodic reports, 39 C.F.R. § 3050 (2015), I have enclosed copies of the following:

Quarterly Statistics Report (QSR), Quarter 3, FY 2016

I have enclosed computer disks containing electronic copies of this report.

Beginning with Quarter 4 of FY 2016, the QSR reports will no longer contain Tables 4 and 5. These tables, which originated under the former ODIS data system, provide days-to-delivery statistics for stamp and meter mail. In light of information contained in public service performance reports, the Postal Service has determined that reporting the ODIS data is no longer necessary. In this regard, we note that the Postal Service furnishes service performance measurement data on market dominant products, as provided under 39 USC § 3691 and 39 CFR Part 3055. These data are reported using established data measurement systems, and the Commission has approved any applicable internal systems used to report such data. Further, in Docket No. PI2015-1, the Postal Service is seeking to secure the Commission's approval to use internal measurements systems for many market dominant products currently being reported using external systems.

Please contact us if you have any questions.

Sincerely,

Daniel J. Foucheaux, Jr.
Chief Counsel, Pricing and
Product Support
